Hannah Francis – Beautician, Consultant, Business Strategist...revolutionising the beauty industry, one business at a time

We help spas, beauty clinics, hotels, and hairdressers operating in the beauty industry...

At Confessions of a Beauty Floor, we put the secret to success in the beauty industry at your disposal. Hannah Francis, the woman behind Confessions of a Beauty Floor, has had a career built on helping major names in the beauty industry in achieving success.

She has helped derive business growth for clients in times when things seemed to be going nowhere for them. After enjoying success in the UK, Hannah is now looking to help businesses in the UAE's beauty industry grow and maximise their revenues.

Hannah has an NLP approach to retail training through which she has helped her clients in the past and how she seeks to serve the UAE market. When your employees develop an understanding of your clients' buying behaviour, only then can your business achieve growth.

What's Hannah's strategy?

Training client's employees to understand how they contribute towards business and revenue growth. As simple as it may sound, it is the one thing that businesses fail to employ and this becomes the reason that their revenues hit a "glass ceiling."

Hannah provides you with a full-fledged solution to succeed in this ever-so-competitive industry. With 14 years of experience and a track record of successful clients, Hannah's strategies are the guarantee that you need to achieve *the unachievable* in this business.

Did you know your clients have strategies on how they shop?

Hannah coaches your team to keep an eye on the most minute of details and serve each customer and potential customer better! If you are someone who thinks that the beauty industry is not a good place to be in the UAE, then you've got your facts seriously wrong. The industry's potential is immense; all you have to do is ask Hannah how to capitalise on the potential in this industry.
